Skills

- **Design & Research:** UX/UI Design · Interaction Design · Responsive Web Design · Accessibility (WCAG 2.2) · Usability Testing · A/B Testing · Persona Development · Customer Journey Mapping · Information Architecture · Design Thinking
- **Blockchain & Web3:** Wallet Infrastructure · Self-Custody UX · DeFi · NFTs · dApps · Multi-Chain Ecosystems · Hardware Security Modules
- **Tools & Software:** Figma · FigJam · Framer · Rive · Protopie · Adobe Creative Suite · Miro · Notion · Jira · Confluence · Claude and Figma MCP · AI Automation Workflows
- **Domain Expertise:** B2B SaaS · HRTech · Hardware Product Ecosystem · Crypto · Fintech · D2C
- **Collaboration & Agile:** Agile/Scrum · Cross-Functional Collaboration · Stakeholder Communication · Design-to-Dev Handoff · PRD Writing · OKRs

Experience

Product Designer, [Cypherock](#), Gurgaon, India

Dec 2025 – Present

- Led the end-to-end product design of **Cypherock X0**, taking the product from **concept to beta launch within an aggressive four-month timeline** by delivering a complete **mobile-first hardware wallet ecosystem** spanning **physical NFC card design, premium packaging, manufacturing-ready assets**, and the companion **X0 Wallet application**.
- Architected the **N45 Design System** as the scalable foundation for the X0 ecosystem, introducing reusable components, **design tokens**, interaction patterns, and documentation that accelerated cross-platform development, streamlined design-to-engineering handoff, and enabled AI-assisted product workflows.
- Defined the **product architecture and interaction model** for the **X0 Wallet application**, designing intuitive self-custody experiences across wallet creation, recovery, transaction authorization, portfolio management, and NFC-based hardware interactions.
- Designed intuitive **NFC and BLE interaction flows** across **CySync Desktop, Mobile, and X1 Vault**, collaborating with firmware, blockchain, hardware, and frontend teams to simplify complex hardware and security workflows.
- Led the redesign of **CySync v2**, architecting BLE-powered interactions between the **X1 Vault** and **CySync Desktop & Mobile**, contributing to forecasted **+40% engagement, 25% fewer interaction steps**, and **+70% DAU**.
- Built the end-to-end **affiliate ecosystem**, including the **landing page, partner dashboard, and admin portal**, defining onboarding, commission management, and operational workflows to support scalable partner acquisition.
- Integrated **Claude Code MCP** into research, PRDs, documentation, and design exploration, improving cross-functional execution speed by approximately **~40%**.

UI/UX Designer, [Onefinnet](#), Noida, India

Jan 2024 – Nov 2025

- Spearheaded the end-to-end product design and strategic vision for **Onefinnet Talent**, a B2B SaaS recruitment platform for the US market. Led a cross-functional team of 7, creating a new core revenue stream and driving a **12% growth in enterprise adoption** within 6 months.
- Architected and executed a strategic **Freemium acquisition model**, resulting in a **23% increase in Monthly Active Users (MAU)** and a **15% improvement in lead conversion rates**, establishing a scalable framework for future product growth.
- Pioneered the design and development of the product's flagship **AI Assistant** for automated job creation and interview scheduling, reducing manual recruiter effort by **40%** and increasing user retention by **18%**.
- Directed the rapid prototyping and launch of an MVP for an integrated **Meeting Scheduler** (Google Meet & Zoom), delivering the core feature within a **60-day sprint**. Validated product-market fit with over **180 early adopters**, achieving a **90% positive feedback score on usability**.
- Integrated **AI-powered design tools (Claude, Midjourney, Figma plugins)** into the design workflow, reducing iteration time by **40%** and improving stakeholder sign-off speed. User satisfaction scores for delivered features increased by **25%** based on post-launch surveys.
- Championed a continuous, data-driven user testing program; conducted **A/B tests** on key conversion funnels, increasing **task completion rates by 18%**. Facilitated iterative feedback loops with stakeholders and ran **pilot tests** with beta users to rework the customer experience, boosting the overall **Net Promoter Score (NPS) by 7 points from 38 to 45**.
- Built a comprehensive **design system from scratch** with 100+ reusable components (buttons, forms, data tables, navigation), reducing design-to-dev handoff time by **30%** and design inconsistencies by **40%**.

Education

UPES, Dehradun, Bachelor’s of Design, Interaction Design

Aug 2020 – Jul 2024

• CGPA: 8.48 (Recognition) Minor Specialization: Computer Science

Honors and Achievements

- CII Young Designer Award Winning Entry

• Student Service Design Challenge Honorable Mention

• D’Ssource Corona Design Challenge Winning Entry

• 24hr Design Hackathon 2nd Runner Up
- Confederation of Indian Industry

Barcelona Design Week (SSDC)

IDC School of Design, Mumbai

Doon University, Dehradun
