Summary

Senior Product Designer with ∼3 years designing **self-custodial crypto products**, from mobile wallets to swap and staking flows, making complex on-chain mechanics simple for everyday users. Sole design lead at Cypherock.

Experience

Cypherock | *Senior Product Designer* — Gurugram, India | *Dec 2025 – Present*

- Own all design decisions as **sole lead designer** across Cypherock's **hardware wallet ecosystem** (**X0, X1 Vault, CySync Desktop & Mobile**), aligning product direction with the **CEO, Product, Marketing, and Engineering**.
- Led the end-to-end design of **Cypherock X0** over **10 months, from concept to production readiness** (now in security audit), a **mobile-first** ecosystem spanning NFC cards, premium packaging, manufacturing assets, and the **X0 Wallet app**, defining its **product architecture and self-custody flows** for wallet creation, recovery, and transaction authorization.
- Architected the **N45 Design System** for X0, an **AI-ready system** of components, tokens, and docs built for **Claude, ChatGPT, Cursor, and Figma MCP**, cutting design turnaround from ∼**10 to** ∼**2 days (5**× **faster)** and reducing iteration cycles.
- Shaped **swap and staking experiences** in CySync through partner integrations with **Houdini Swap and staking providers**, turning technical constraints into simple flows for **trading and earning yield**.
- Driving the product design of the **Cypherock X1 Vault**, crafting **NFC and BLE flows** for wallet setup, card authentication, transaction verification, and recovery across CySync Desktop & Mobile with firmware, hardware, and frontend teams.
- Led the redesign of **CySync v2**, architecting **BLE-powered interactions** between the **X1 Vault and CySync Desktop & Mobile**, driving a **40% increase in user engagement**, **25% fewer interaction steps**, and **70% growth in DAU**.
- Built the end-to-end **affiliate ecosystem** (**landing page, partner dashboard, admin portal**), defining onboarding and commission workflows for scalable partner acquisition.

Onefinnet | *UI/UX Designer* — Noida, India | *Jan 2024 – Nov 2025*

- Spearheaded end-to-end design for **Onefinnet Talent**, a **B2B SaaS recruitment platform** for the US market, leading a **cross-functional team of 7** to launch a new revenue stream and **12% growth in enterprise adoption within 6 months**.
- Architected a **Freemium acquisition model**, driving a **23% increase in MAU** and **15% higher lead conversion**.
- Pioneered the design of the flagship **AI Assistant** for automated job creation and interview scheduling, reducing **manual recruiter effort by 40%** and increasing **user retention by 18%**.
- Directed the rapid prototyping and launch of an integrated **Meeting Scheduler for Google Meet and Zoom**, delivering the MVP within a **60-day sprint** and validating it with **180+ early adopters** (**90% positive feedback**).
- Ran a **data-driven testing program**: A/B tests lifted **task completion by 18%** and **NPS from 38 to 45**.
- Built a **design system of 100+ components**, cutting **handoff time by 30%** and **design inconsistencies by 40%**.

Veritas Technologies (now Cohesity) | *CX Designer Intern* — Pune, India | *Jun 2023 – Jul 2023*

- Ran a **competitive analysis** of Veritas' data protection products on **ransomware resiliency**, benchmarking recovery and security capabilities against competitors to inform product and CX strategy.
- Created **persona cards** for **enterprise data protection user groups**, helping internal stakeholders understand user needs.

Skills

- **Design & Research:** UX/UI Design · Interaction Design · Design Systems · Mobile-First Design · User Research · Usability Testing · A/B Testing · Wireframing · Prototyping · Information Architecture · Journey Mapping · Accessibility (WCAG 2.2)
- **Product & Strategy:** Product Ownership · Product Discovery · Requirements Gathering · PRD Writing · Roadmapping
- **Blockchain & Web3:** Wallet Infrastructure · Self-Custody UX · DeFi · Swaps & Staking · dApps · Multi-Chain · HSMs
- **Tools & Software:** Figma · Figma Make · FigJam · Framer · Rive · ProtoPie · Jira · Confluence · Claude/Cursor/Figma MCP
- **Domain Expertise:** Data Protection & Security · Crypto & Fintech · Hardware Products · B2B SaaS · HRTech · D2C
- **Collaboration & Agile:** Agile/Scrum · Cross-Functional Teams · Stakeholder Management · Design-to-Dev Handoff

Education

UPES, Dehradun | Bachelor of Design, **Interaction Design** (Minor: Computer Science) · **CGPA: 8.48** *Aug 2020 – Jul 2024*

Honors and Achievements

- **CII Young Designer Award** – Winning Entry, CII
- **D'Source Corona Design Challenge** – Winner, IDC Mumbai
- **Student Service Design Challenge** – Honorable Mention
- **24hr Design Hackathon** – 2nd Runner-Up, Doon University
